November 25

My dear Ray,
I met Malome Kotane
and looks much better than last
time. He was happy to hear from you
and sends his regards. I do not
think I shall be back till just
before Xmas. Meanwhile, you will
have to hold the fort.

Re: Mildred

(a) She should set up people to
infiltrate heavily both parties in
the Transkei in order to put forward
Congress programme. The following slogans
should be adopted.

- (i) Land to the people i.e. land
occupied by the ~~white~~ white farmers.
- (ii) End poverty.
- (iii) Abolish pass laws and provision
of job security plus training.
- (iv) Trade union rights

(2)

- (V) Expropriate the rich.
- (VI) End the state of emergency viz proclamation 400.
- (VII) More hospitals and health centres.

In addition, Milly should try to set up a small congress nucleus which supervise the group working in mass organisations. This small group should be directly accountable to them.

Hoping that everything is going well with granny. I am afraid you will have to push a lot to see to it that our young friends implement our programme of work.

It is already very cold here but the warmth of the people keeps away the cold.

All my love.
Chris.
