COUNCIL'S NEEDS

- a. Two (2) type-writers : These are for fast and speedy ^{prod} ~~production~~ of writing copies.
- b. Three (3) duplicating machines : These are for fast and ^{speedy} production of pamphlets in large numbers for distribution, evenly and timeously throughout the areas we have managed to form links with, thus-far. .
- c. Two (2) photo-copying machines : These are to be include in our pamphlets (N.B. Photos that include all that is ^{relevant} ~~to~~ to our course also written statements).
- d. Two (2) cars : (i) One(1) is to be used for administration i.e. transport for assignments; internally.
 (ii) The other (i.e. 2nd) for external administration.
- e. Medical Funds : Since the majority of the councils members are sought by the police, when sick, it is difficult to go to public places for medical attention. Thus private doctors are the only people to turn to, while they are rather expensive.
- f. Scholarships : Assistance ought to come from the council on the majority of the councillors who are not able to get in contact, constantly, with their parents, concerning school books, stationery, ect.
