Dear Mr. Badsha:

As you know, the International Center of Photography is a museum/center devoted to photography. Our aim is to present the work of people working around the world, both to a local audience and student body, and an international audience as well. We accomplish this, as well as we can, by exhibiting works from around the world, and asking these photographers to speak here in New York to our students.

We would very much appreciate your being able to be with us to present your work to our students during our various lecture forums. If you could approximate your presence in New York, we would then schedule such an opportunity. Late January or early February would be the time span we would propose. We know time is short, but if you could arrange to be with us then, we would greatly appreciate it.

We look forward to hearing from you, and knowing of your availability. If there is anything we can do to expedite your being with us, please do not hesitate to let us know.

With all best wishes,

Sincerely,

A handwritten signature in dark ink, appearing to read 'Cornell Capa', written in a cursive style.

Cornell Capa
