

Youths at Alexandra funeral wave UDF posters

UDF affiliates called upon to intensify campaign to unban the African National Congress

The UDF has launched a campaign to Unban the ANC. This decision was taken at the recent meeting of the National Working Committee of the UDF.

Guided by the legitimate aspirations of the people of South Africa, the UDF is demanding:

- * The unbanning of the ANC.
- * The unconditional release of Nelson Mandela and all political prisoners so that they can play their rightful role alongside the

oppressed masses of South Africa to build a new country.

* Their return of our leaders in exile to the country of their birth as free men.

"Without the ANC there can be no peace and democracy in this country," said the UDF in its statement.

The UDF has set up a national co-ordinating committee to plan the campaign and has called on all affiliates to take up the campaign.
