RE : INFORMATION

Sir/Madam

I hereby first apologise for not keeping in touch with you. After the failure of the Seminar that was to be called on Oct. 8th to 10th. The problem being finance.

I hope that each and every branch has thus received the Constitution of the organisation, and the SASO Bulletin that is to be analysed particularly in the following topics:

Aliance of the Economics

Factors determining Liberation in S.A. - The Socio-Economic Aspect  
(This was discussed in the G.S.C. but not fully).

Each and every branch is supposed to attend the seminar that the Executive will call very soon when the organisation is well financed, and give its views of points.

I now send each and every branch the Minutes and Agenda of our 4th G.C.S. and the History of SASM and the Policy of SASM and the suggested Education Policy that is also going to be discussed in the coming seminar.

I am very much aware of the pressure and harassment police to SASM members and Executive but I request that we must keep our selves in order and in touch.

I again sadly inform you about the detention of our President Allen BUDELI from SIBASA (Vendaland) and the other members of SASM and highly praise the work SASM had done up North and other areas.

Hoping to hear from you  
S.S. MAZIBUKO (V. President).
