

It is an obvious fact that who ever took pain to discredit and talk ill of the SSRG is an unmeaningfull change in the country. The person involved wishes to break ~~the~~ one of the most powerfull student Organisation in the country which of course is highly impossible. The SSRG has not only ~~proved~~ ^{Proved} itself to have support in all black townships but throughout the country. ^{Allen} ~~They~~ break the student power in Soweto is like saying to black people "forget that you are oppressed".

~~The~~ ~~SSRG~~ students in general wish to express their feelings through the SSRG to the effect that the Concerned Soweto Parents should convene meetings with students, come up in the open and deliver the same message refitted in the pamphlets. If they are brave enough to write such "rot" then it means they are capable of ~~prevaling~~ ^{prevaling} the message verbally.

Sechaba: I and ^{the} student mass in Soweto will recognise Tseisi Mashinini as our leader and sole initiator of the June events. Nobody is going to dissociate us from him.

I have successfully avoided being traced through the school register. I expected this in February, they are too slow. I however invite Concerned Soweto ^{to watch my progress} parents to my school. They must be worried about my progress hence the formation of this body. I urge them to resign too their work is irrelevant."
