

# RE-INSTATE ALL DISMISSED WORKERS!

We are dismissed workers from Vineyard, Townhouse and Spurs. We were dismissed for joining the stay-away. Now it is hard for us. But we knew what might happen. And still we are not sorry. We think we did the right thing.

Now we are calling you to help us. Join our struggle to get our jobs back. Join the struggle of all workers against the Labour Bill.

The bill is trying to take us back to the bad times of our ancestors.

The struggle has reminded us of the 1960's when our comrades went to the grave. It has revived our spirit.

Workers! Remember our oppression from the pass laws. Now this oppression is even more.

The bill attacks our rights which we won through our organization.

## SCRAP THE LABOUR BILL!

We heard the call of COSATU to protest against the bill. It was a danger to sit and do nothing.

If we fold our arms and do nothing, it will kill us and our children. Our future is dim.

We showed the bosses and the government. If we don't want something, we won't accept it.

When they first made the law, we were not there. Now, through our action, we are there.

We have got no right to vote in Parliament. By this action, we are sending our voice to the bosses.

We think our action forced the bosses to come to the table with empty pockets. We took away their profits.

When they made this law, they didn't come and talk to us about it.

Workers! The government mustn't always take a mandate from the bosses. We must have a government that listens to us.

We must show. If we say NO they mustn't say YES.

We won't leave the union outside the gate and go inside without the union.

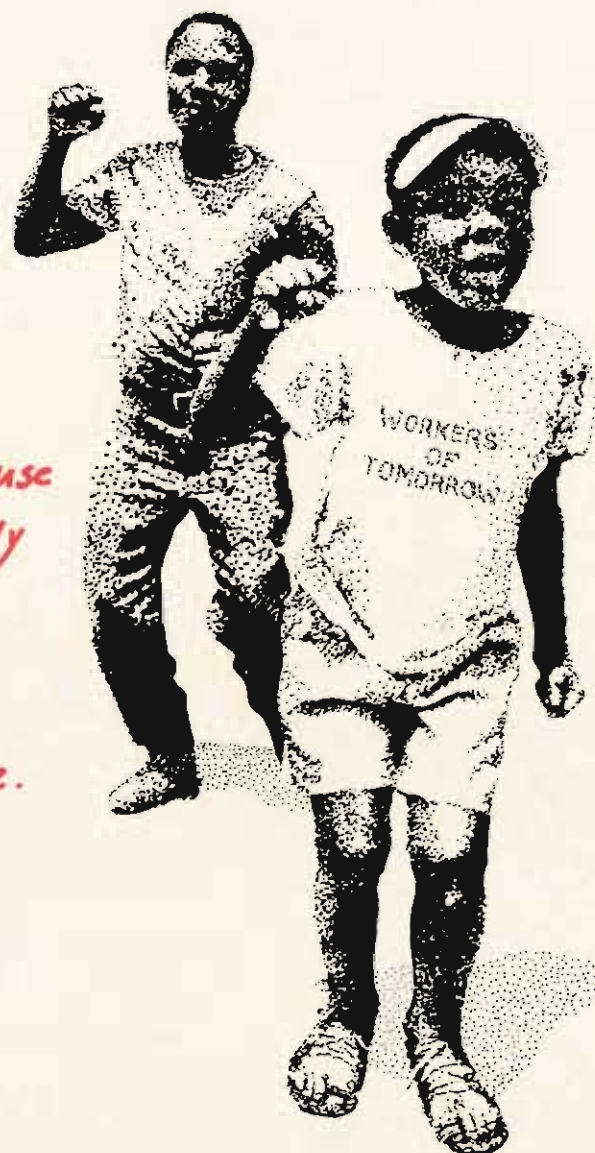

## THE STRUGGLE CONTINUES!

Workers! If you don't continue the struggle you are saying this law is OK for us as workers.

Workers! Did you see the danger. Because we saw the danger. The bosses already used the bill against us.

We say to all our comrades: You must also feel strong. Come together. Unite. Come to us. We must make one unity to fight the bill.

The bill attacks not only ourselves but also our children and our future.

The united fight against the labour bill is a step towards our liberation as workers.

We are not only fighting for ourselves but also for our children. We are ready to fight to the last drop of our tears.

# VIVA WORKER UNITY!
