

Neither I nor Young did plan the march: Says students' leader -

It is shameful that when people are impressed by some moves - they go on scandalising some people's names. No leader could dictate some terms to a democratical organisation like the Soweto Students' Representative Council(SSRC).

The students' body planned the march and not Young nor Gordon. If we could not like Kissinger, I do not see why we should like Young, because they were all in South Africa for on the same mission.

The only difference ~~is~~ is that, - Young had to be diplomatic enough to see the black leaders - while Kissinger was only a "peace maker" with no political aspirations.

We have not met Young I maintain, and no plan of march came from him nor Gordon.

#### APOLOGY:

When the Press man questioned why he had to bring about misunderstandings to the students by saying Gordon is a students' leader, instead of Trofomo, he said he had mistaken the names because of the surnames that are the same. But Trofomo clarified him by saying; "Gordon is just a member, but Trofomo is a leader", and he apologised.

He again told him that there was no any executive in SSRC and there won't be any, so by this the Press man should stop talking of some ~~xxx~~ "impromptu meetings of SSRC's top ten".

RESCUE:

About the whites who came at a Diepkloof funeral, Trofomo said he knows nothing, in fact, he ~~xxxxxxxxxxxx~~ did not see them. " Thanks Heavens, I never saw them" , he said,

We appeal to the Press not to publish any thing ~~xxxxxx~~ without an interview of the people concerned.

This must come to an end. Also, SSRC has nothing to do with prestige and fame - but something to do with the scrapping of Bantu Education.

We still maintain, our aim is not to dethrone the South African Government, but to see Bantu Education driven to hell.

**OUR POLICY IS NON-VIOLENCE.**
