In the light of the systematic campaign by the state to eliminate the UDF, this murder will be seen by many as the work of the state or its allies. All these murders remain unsolved + Perpetrators of such violence remain at large to continue their murderous deeds.

These senseless murders will not stop the peoples onwards march to freedom. We must ^{once more} ask the U.S., UK + West ^{German} govts who continue to support the Aparth regime ^{to discard} their policy of ^{constructive engagement} + support the just cause of the peoples struggle for freedom.
